## Reflections from Father Daryl

### Annual Finance Report

Each year, the diocese requires that all parishes present an annual finance report to the parish. As we look back to last year, we realize one was not presented. With all that was going on with the aftermath of the fire, it just did not get presented. In today's bulletin you will find two reports. One is the actual vs. budget income and expense report for the fiscal year of July 1, 2018 – June 30, 2019 the second is the renovation related costs incurred by the parish and not covered by insurance.

As you look at the actual vs. budget report, you will see some rather large numbers in the report on both the income and expense reports. These are related to the fire and renovation. During the renovation the parish made payments to subcontractors and then was reimbursed by insurance. Thus, we see a large increase in both the income and expense report. Also included in the income are funds we withdrew from our savings account to pay for renovation costs that were not covered by insurance. With all things considered for the year, our actual expenses finished just above our budget for the year. The actual vs budget report includes extraordinary gifts that were not reflected in the 6/30/19 contributions in the bulletin. For the next fiscal year we have increased the budget to \$703,692.

The second report is the actual costs of the renovation not covered by insurance. The total cost for the fire damage and renovation came in at approximately \$4.5 million. The total costs to the parish came to \$638,000. These costs were covered through three sources; memorials from parishioners to cover the costs of the renovation, donations by parishioners as extraordinary gifts for the renovation, and withdrawals from our savings with the diocese. We were also able to cover some expenses out of our ordinary weekly contributions. As of the end of the fiscal year, all fire and renovation expenses have been paid. We begin the new fiscal year with our regular yearly budget.

Because we did not receive the gifts necessary to cover the costs of the renovation during the process, we withdrew \$345,000 from our savings with the diocese. This amount is about half of what we had in savings with the diocese. With the renovation now complete, I along with the finance council seek to strengthen our savings. If you did not have the opportunity to make an extraordinary gift toward the renovation, you may still do so and we will put the gift back into our savings with the diocese.

I, along with the finance council, extend our gratitude to all for the support for rebuilding and renovation of our beautiful church.
